

In-Line Magnetic Separators

Keller magnetic separators clean steel or iron chips from coolant or oil

ADVANTAGES:

- Powerful 5000 Gauss Rare Earth Magnets
- Flow Rates to 50 GPM
- Filtration down to 10 Microns
- Inexpensive: Unique Assemblies Utilize Standard Filter Housings

APPLICATIONS:

The Keller in-line magnetic separators are ideal for metalworking operations machining cast iron or steel.

Specifications and Ordering Information

Magnetic Assemblies with Plastic Housings

Part #	Materials	Port Size	Element Length	Max. Pressure
050A-MAG-102	Polypro./SAN	1/2"	5"	125 psi
050B-MAG-102	Polypro	1/2"	5"	125 psi

075A-MAG-102	Polypro./SAN	3/4"	10"	125 psi
075B-MAG-102	Polypro	3/4"	10"	125 psi

075B20-MAG-102	Polypro	3/4"	20"	125 psi
----------------	---------	------	-----	---------

Magnetic Assemblies with Stainless Housings

Part #	Materials	Port Size	Element Length	Max. Pressure
XS050-MAG-102	304SS/Brass	1/2"	5"	300 psi
XS075-MAG-102	304SS/Brass	3/4"	10"	300 psi
XS100-MAG-102	304SS/Brass	1"	10"	300 psi
XS102-MAG-102	304SS/Brass	1"	20"	300 psi

Magnetic Elements Only (Fits standard housings without modification)

Part #	Element Length
R05-MAG-102	5"
R10-MAG-102	10"
R20-MAG-102	20"
